B-Tech BT7882/B AV stand accessory:

The BT7882 is the ideal solution for securing AV equipment designed to 1U, 2U & 3U rack specification onto B-Tech mounts, or directly to a wall if desired. An open framework design provides sufficient airflow to keep mounted devices cool and at the same time secure; preventing unauthorised removal through the use of pin hex security screws. The BT7882 can also be mounted onto Ø50mm poles, using B-Tech's System 2 collars or directly onto System X mounting rails and columns.
