

## Seagate Desktop HDD 60GB HDD 3.5" Ultra-ATA/100

**Marca :** Seagate

**Familia de productos:**  
Desktop HDD

**Código del producto:**  
ST360015A

**Nombre del producto :** 60GB  
HDD

Seagate Desktop HDD 60GB HDD. Tamaño del HDD: 3.5", Capacidad del HDD: 60 GB, Velocidad de rotación del HDD: 7200 RPM

| Características                                 |                      | Control de energía                                |                   |
|-------------------------------------------------|----------------------|---------------------------------------------------|-------------------|
| Tamaño del HDD *                                | 3.5"                 | Consumo de energía (escritura)                    | 12 W              |
| Capacidad del HDD *                             | 60 GB                | Consumo de energía (espera)                       | 9.5 W             |
| Velocidad de rotación del HDD *                 | 7200 RPM             | Voltaje de operación                              | 5 / 12 V          |
| Interfaz *                                      | Ultra-ATA/100        | Corriente de arranque                             | 2.8 A             |
| Tipo *                                          | Unidad de disco duro | Condiciones ambientales                           |                   |
| Tamaño del búfer de la unidad de almacenamiento | 2 MB                 | Intervalo de temperatura operativa (T-T)          | 0 - 60 °C         |
| Número de cabezales en el HDD                   | 2                    | Intervalo de temperatura de almacenaje            | -40 - 70 °C       |
| Tiempo de lectura                               | 9 ms                 | Intervalo de humedad relativa para funcionamiento | 5 - 90%           |
| Tiempo de escritura                             | 10 ms                | Intervalo de humedad relativa durante almacenaje  | 5 - 95%           |
| Tiempo de búsqueda entre pistas                 | 1.2 ms               | Vibración operativa                               | 0.5 G             |
| Tiempo promedio de búsqueda                     | 9 ms                 | Vibración no operativa                            | 5 G               |
| Latencia promedio                               | 4.16 ms              | Altitud de funcionamiento                         | -198.12 - 3048 m  |
| Bytes por sector                                | 512                  | Altitud no operativa                              | -198.12 - 12192 m |
| Iniciar/detener ciclos                          | 50000                | Resistencia a golpes                              | 63 G              |
| Tiempo medio entre fallos                       | 600000 h             | Golpe (fuera de operación)                        | 350 G             |
| Control de energía                              |                      | Peso y dimensiones                                |                   |
| Consumo energético                              | 13 W                 | Ancho                                             | 101.8 mm          |
| Consumo de energía (inactivo)                   | 0.75 W               | Altura                                            | 26.1 mm           |
| Consumo de energía (lectura)                    | 12 W                 | Profundidad                                       | 147 mm            |
|                                                 |                      | Peso                                              | 635 g             |
|                                                 |                      | Otras características                             |                   |
|                                                 |                      | Tiempo para unidad preparada                      | 10 s              |
